Two Rockford Orthopedic services recognized for demonstrating the highest level of excellence in patient satisfaction and overall care

ROCKFORD, IL August 29, 2013 ... Voyance, a Centers for Medicare-approved CAHPS vendor, has announced Rockford Orthopedic Surgery Center and Rockford Orthopedic Rehabilitation as 2012/2013 Apex Quality Award Winners for Healthcare Excellence.

This national distinction recognized 91 outstanding healthcare organizations across 29 states from among their peers for demonstrating the highest level of excellence in patient satisfaction and delivery of care based on indicators tied directly to care in patient feedback surveys.

This is the third time Rockford Orthopedic Surgery Center and second time Rockford Orthopedic Rehabilitation have been distinguished with this honor. Rockford Orthopedic Surgery Center is a state-of-the-art facility providing surgery and pain management procedures that do not require an overnight stay and is owned by Rockford Orthopedic Associates, Ltd. and OSF St. Francis, Inc. Rockford Orthopedic Rehabilitation is a service line of Rockford Orthopedic Associates and provides on-site outpatient orthopedic therapy, specializing in physical, occupational, hand, and work rehabilitation.

Voyance is the clinical benchmarking arm of the Physician Hospitals of America and the Ambulatory Surgery Center Association (ASCA), providing integrated patient satisfaction surveying for clients throughout all fifty states.

Established in 1967, Rockford Orthopedic Associates, Ltd. serves the northern Illinois region in multi-specialty orthopedics and offers a full range of university-level orthopedic care and the additional specialties of podiatry, physical medicine and rehabilitation, and rheumatology. Rockford Orthopedic offers the ancillary services of physical and occupational therapy, MRI, workers' compensation, and an out-patient surgery center. #

... a higher standard of care.
