David Dansdill, MD Honored With 2013 Vitals Compassionate Doctor Award

ROCKFORD, IL February 4, 2014 ... David Dansdill, MD, of Rockford Orthopedic Associates, Ltd. has received a Vitals Compassionate Doctor Award based on patient feedback provided about their doctor online during 2013, an honor accorded only three percent of the nation's 870,000 active doctors.

Vitals.com is an online resource accessed by more than 12 million consumers each month and on which hundreds of thousands of patients from across the country write about their experience and rate their doctor on several components of care, including bedside manner, doctor-patient face time, and degree of follow-up. Patients also provide an overall rating. According to Vitals.com, while physicians generally receive positive feedback on the site from their patients, only a select few receive praise about the compassion that accompanied their care.

Dr. Dansdill is fellowship trained in rheumatology and immunology. As a Board-certified physician, Dr. Dansdill's practice is focused on rheumatology, which is the medical treatment of musculoskeletal pain, arthritis, osteoporosis, and autoimmune diseases.

Rockford Orthopedic Associates, Ltd. serves the Northern Illinois region in multi-specialty orthopedics and offers a full range of orthopedic care including the specialties of podiatry, physical medicine and rehabilitation, occupational medicine, and rheumatology. Rockford Orthopedic offers the ancillary services of a walk-in injury clinic, physical therapy, MRI, workers compensation and an out patient surgery center. #

... a higher standard of care.
