

Accurate, Reliable, Affordable!

HIGH TECH BODY COMPOSITION ANALYSIS

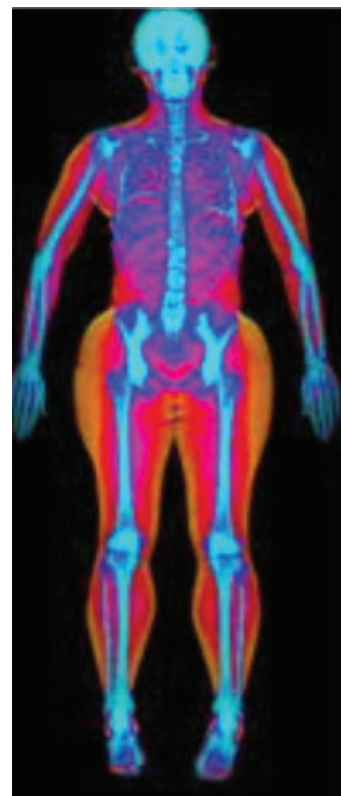

\$49^{95*} for
initial scan;

\$34^{95*} for
follow-up scan

Now available in Rockford, the most accurate method of measuring body composition utilizing state-of-the-art Dual Energy X-ray Absorptiometry (DEXA) - offered at a low fee-for-service cost without the need for a physician order!

In just 3-4 minutes, a DEXA scan can provide you with a detailed body composition analysis that reports your exact percentage of fat, lean and bone mass for overall, and by the specific body segments of arms, legs, and torso. Your comprehensive printed report includes images and data showing body composition results and is complimented by a summary of results by a DEXA tech.

A great way to monitor how successful your diet and training have been toward achieving your goals!

There's no longer a need to travel out of town or pay higher fees for an accurate body composition analysis or settle for less accurate BMI measurement methods.

Call Orthollinois today to make an appointment at 815.398.9491

* No physician order required. Body Composition Analysis are not covered by insurance and full payment is required at time of service.
