OrthoIllinois Welcomes Dr. Harjot Thind to Medical Team

ROCKFORD, Ill. (Aug. 2, 2021) – [OrthoIllinois](#), a leading bone and joint health care provider in northern Illinois, welcomes spine surgeon [Dr. Harjot Thind](#) to its growing medical team this month.

Dr. Thind is fellowship-trained with a focus on general cranial and spinal neurosurgery and a special interest in minimally invasive and navigated spine surgery. She is passionate about education and helping patients understand their conditions and treatment options so decisions are made together and individualized to patients' needs.

She graduated with a degree in behavioral neuroscience from Lehigh University in Pennsylvania and received her medical degree from Tulane University School of Medicine, along with her master's degree in public health with a concentration in global health from Tulane University School of Public Health and Tropical Medicine.

Dr. Thind completed her first three years of residency training in neurological surgery at the State University of New York at Buffalo and additional residency training at the University of California Davis, where she also completed subspecialty training with a neurological surgery spine fellowship focused on minimally invasive and robot-assisted spine surgeries.

"My goal in patient care is the well-being of my patient – truly the patient comes first," she said. "This means ensuring I provide them with the education they need to understand their condition, as well as the options available to treat their condition, so that we together can make decisions that are best for their unique situation."

Dr. Thind is accepting new patients at the OrthoIllinois Riverside Clinic, 5875 E. Riverside Blvd. For appointments or more information, call 815-398-9491 or visit www.orthoillinois.com.

About OrthoIllinois

Established in 1967, OrthoIllinois serves the northern Illinois region in multi-specialty orthopedics from offices in Algonquin, Elgin, McHenry, and Rockford, and offers a full range of bone and joint care, including the specialties of neurosurgery, podiatry, physical medicine and rehabilitation, occupational health, and rheumatology. OrthoIllinois offers the ancillary services of physical therapy, MRI, and custom orthotics, and an outpatient surgery center. Visits are available with no appointments at the Injury Express urgent care locations in Algonquin, McHenry and Rockford. Visit www.orthoillinois.com for more information.
