OrthoIllinois Opens New Clinic in Elgin

ELGIN, Ill. (Sept. 9, 2022) – [OrthoIllinois](#), a leading bone and joint health care provider in northern Illinois, expanded access to orthopedic subspecialty services with the opening of its new, larger state-of-the-art 49,000-square-foot, state-of-the-art Elgin clinic at 1550 N. Randall Rd., conveniently located right off the I-90 exit.

Construction on the clinic started in July 2021 and the new location opened on Monday, August 15th. The enhanced facility replaces the former clinic location in the Advocate Sherman Medical Office building at 1435 N. Randall Rd. The new and improved location offers a variety of orthopedic care from physicians who are fellowship-trained in total joint replacement, sports medicine, spine care, interventional pain management, and rheumatology.

Additional onsite services include physical and occupational therapy, MRI, X-ray, Infusion, and durable medical equipment. Injury Express, OrthoIllinois' walk-in urgent care clinic that specializes in bone, joint and work-related injuries, as well as occupational health services, also will be available at this location.

"We are thrilled to be expanding in Elgin, a community in which we are proud to continuing growing," said Anthony Brown, CEO, OrthoIllinois. "This expansion is a great example of OrthoIllinois' commitment to offering patient-centric services to meet the demands in our community. We are committed to growth and meeting our patients where they are by providing robust facilities, allowing them to stay local and with the specialists they deserve."

Several of the physicians at the Elgin Clinic have been practicing in the Elgin area for 20 years and joined OrthoIllinois in spring 2018.

The Elgin clinic is accepting appointment requests for all services and Injury Express walk in injury care is open 8 a.m. to 8 p.m. Monday through Friday, 10 a.m. to 4 p.m. on Saturday and Sunday. For appointments or more information, call 815-398-9491 or visit www.orthoillinois.com.
